SIR JOHN SIMON JEERED ON STATING POLICY

Uproar in House as Vote Of Censure Moved

London, Apr. 14.

Censuring the British Government for its allegedly spineless submission to the blockade of Bilbao, and accusing it of actually helping the blockade and the rebel cause, Major Clement R. Attlee, Labour Opposition leader, commenced a heated debate in the House of Commons to-day. "Apparently," he said, "anyone need only tell the Government they intend to sow a few mines at a port and the British fleet will then come and blockade the port for them."

"General Francisco Franco hopes to starve women and children and the British Government is going to help them," Major Attlee cried. "The action creates the wisespread conviction that the Government must be backing Franco. The Government has no right to push this humiliating procedure upon British sailors."

The House greeted this attack with cheers.

The diplomatic galleries were crowded for the debate, the Ambassadors present including those of Russia and Spain. Sir John Simon, First Lord of the Admiralty, replied to the assault, British Government's action with respect to the Bilbao blockade was based on its "policy of no interference, direct or indirect, in affairs in Spain. This is the declared purpose of the Government and of

France", Sir John declared, The Government within the last few hours has communicated with General Franco intimating that we refuse to recognise the rebels' belligerent rights or to tolerate Interference with British shipping, he asserted. "We added that any advice we have given British shipping does not affect the ultimate responsibility for any damage even to a vesse. which has disregarded our advice."

The Opposition constantly interrupted Sir John, one of the members singing, "We've Got a Navy."—United

Angry Interruptions

London, Apr. 14... Sir John Simon's reply in the House of Commons to Labour's vote of censure concerning the British policy of non-interference in the Bilbao blockade, was broken by angry interruptions, and a crowded house listened to-day's proceedings.

Major C. R. Attlee, Labour leader, moved the vote of censure deploring the fallure of the Government to give protection to British merchant ship-

Major Attlee claimed the Government's action in warning shipping that it should not enter Blibao was acquiescence in a grave breach of in-

ternational law. The Labour leader exhibited a cable from the President of the Basque republic - stating that neither the Basques nor General Franco's forces had laid any mines in the approaches of Bilbao during the past fortnight. There had been 58 inward and outward sailings from the port without molestation. The batteries at Bilbao kept the rabel fleet 15 miles from

shore, it stated. Avoiding Complications

Replying to the Opposition on behalf of the Government, Sir John Simon declared it was the Government's policy to avoid all complications which might prejudice good in- Bilbao. Internal affairs of Spain.

Foreign Secretary, recalled that British had; not protested when the Spanish Government last August declared a blockade of the insurgent ports_in_Morocco._There_was_no_ more reason for the Government to do so in the case of the blockade of Bilbno, he argued.

He emphasised that belligerent rights could not be granted to one side. Had Britain followed precedents and granted belligerent rights, then both sides would have attempting to break the blockade, by even on the high seas.

Replying to an earlier question by Sir Archibald Sinclair, Liberal leader, as to whether a thip disregarding the Government's warning to keep clear of Bilbao would be protected if attacked before she reached the threemile limit. Mr. Eden said the answer was definitely in the affirmative. But the Government was bound to warn ships of the dangers on the Bilbao coast, in view of which the Government could not guarantee the safety of thips in territorial waters of

sary for the protection of British shipping to carry out mine-sweeping outside Spanish waters, the Government would certainly consider it. But it was a most formidable task. He emphasised that forcible action within territorial waters would

amount to intervention. Dealing with the plea of Mr. Winston Churchill for arbitration, the Foreign Secretary said if ever Britain could make a contribution to bring the conflict to an end that contribution would be engerly made

GANDHI REMAINS UNMOVED.

Declares British Policy Unfair

London, April 14.

A series of important efforts on the part of the British authorities to placate the All-India Congress Party opposition to constitutional reforms, in their present form, has falled to shake Mahaima Gandhi in the advice he has given the party not to accept office in the provinces where its members have secured a majority. is made clear in a message from Gandhi to the Times, sent from Wardha.

Gandhi refers directly or inferentially to the gestures contained in a speech of Lord Zetland, Secretary of State for India and Burma, editorial in the Times, and a letter from Lord Lothlan to the Times, all elucidating the constitutional implicalons and endeavouring to remove India's misapprehensions.

Lord Zetland, in a speech on April 3, ruled out as impossible the suggestion that Governors give assurances that they will not use their special powers, but indicated that the Viceroy would willingly explain the provincial positions further if approached by Gandhi or other Congress party representatives.

NOT FAIR

Gandhi's message to-night rejects Lord Zetland's interpretation and says his refusal to submit his interpretation, to examination by a tribunal will raise the strong presumption that the British Government does not intend to deal fairly by the majority, whose advanced programme Britnin' dislikes.

"I prefer an honourable deadlock to dishonourable daily scenes between Congress party members and the Governors, for in the sense the British Government means, the working of the Act by the Congress party seems impossible," Gandhi writes.

"It is therefore for the British Government to show the Congress party by every means open to it within its constitution, that the Congress party can advance towards its goal even by taking office."

Having affirmed that he was not netunted by any question of false London, Apr. 14. prestige, Gandhi says: "My function Lieutenant-Colonel A.B. Thomson, is that of a mediator between the

Franco Fears Ruthless Campaign Would Ensue

Hendaye, Apr. 14:

Differences of opinion between General Francisco Franco and the Italo-German general staff in Spain are described in reports of well-informed observers from Salamanca, who state that General Franco, the Insurgents' commander-in-chief, has been fighting against the suggestion from Rome and Berlin that he delegate the military side of the war to another leader than himself, and concentrate on governmental affairs.

For months, it is stated, the Germans and Italians at Salamanca have been striving for control of military operations, and the Germans especially are convinced that General Franco is incapable of winning the war while retaining the supreme command.

200 WARSHIPS, 400 AIRPLANES READY FOR WAR GAME

By Carroll Kenworthy United Press Staff Correspondent Washington, April 15.

Sky fighting on a greater scale than ever known in sea "war" was ahead for the United States fleet to-day as it prepared to steam into the north Pacific from California ports for annual naval manocuvres.

Two hundred fighting ships, comprising most of the underaged combat units in the navy, were marshalled to take part in the games over an expanse of 2,000,000

The "arena" ahead of them is a great triangle 2,000 miles or more on each side, reaching from California to the Alcutian Islands, off Alaska, on one side and thence to the Hawaiian Islands near mid-Pacific. The Midway Islands, 1,200 miles northwestward of Hawaii, will figure also in the operations, it was indicated.

Air power was tested in this region by naval manoeuvres held there two years ago, but to-day more squadrons of flying craft than ever before are available for the games,

YEARS OF THE H.A.C. THE OLDEST REGIMENT

By A Correspondent

REVIEW BY THE KING

The Honourable Artillery Company, which claims to be the oldest regiment in the British Army, though the date of actual origin has been lost in the mists of time, is busily preparing to celebrate the 400th amilyersary of the granting of Charter of Incorpora-

tion by Henry the Eighth.

These celebrations might be said to begin in May when the H.A.C., for the first time in half a century, will take part in the Royal Tournament, 124 men of all ranks appearing in the episode, "A Field Day of 1829."

Because these civilian soldiers, members of the senior unit in the Territorial Force, are "something in the City" by day, the episode is being presented only at night performances. save on the opening afternoon, when the Tournament is opened by the King, Captain-General of the H.A.C.

Then in July the regiment holds high revelry for a week in token of its proud record, and will have as guests nearly 100 members of the Ancient and Honourable Artillery Company of Boston, Massachusetts, who will be in England, out of compliment to their "parent" unit. On July 9 there is to be a ball, attended by 3,000 members and their friends, given in a great marquee erected on the Artillery Ground, Finsbury, E.C. This is followed the following day by a regimental pageant and garden party, in which all ranks of the unit through four centuries will be seen.

SERVICE IN ST. PAUL'S

On Sunday, July 11, there is to be regimental service of thanksgiving at St. Paul's Cathedral, followed by a banquet on the 12th at Grosvenor House, Parklane, W., which will be attended by 2,000 people, including the Duke of Gloucester, who joined the H.A.C. in 1935. On the 13th the H.A.C. members will themselves be entertained by their comrades from

At the Guildhall on July 14 the City Corporation, so closely linked with the Company through the centuries, are giving a reception which, it is expected, will be attended by a member of the Royal Family, and on Monday, July 19, the entire regiment will be reviewed by the King.

The men from Boston will be taken to Windsor and shown the house where The United Press learned that at the English emigrant—one of the Jeast 45 vessels in the United States H.A.C.—who inaugurated their regifleet to-day are equipped' with flying ment in 1638 was born, and next year, units, the total number of which is when the Boston unit is 300 years believed to be 403. NEW YORK STOCK EXCHANGE MARKET UPWARD YESTERDAY -

New York, Apr. 14. S. C. & F. Dow Jones summary of to-day's markets:-The markets today registered the third consecutive advance since the Wagner Act was -upheld-by-the-United-States Supreme' Court, but trading, on the whole, was dull. Steel issues staged the best gains, into which issues some switching from motors is reported. The latter stocks showed small gains in a still feeble rally. Copper shares recovered on the basis of firm metal prices. Among oils, several issues reached new high levels. Paper issues were higher on record newsprint output. American Smelting, Anaconda Copper, Cerro de Pasco, Kennecott Mining and Phelps Dodge all registered guins of a point or more. Mercantiles were firm. The bonds market was higher. Stocks on the Curb Exchange were irregularly higher.

S. C. & F. Wall Street Journal morning comment:—The first-quarter earnings of the American Telephone Company are likely to cover dividend needs. Some motor accessory shares are favoured over leading motor issues temporarily. Bulls consider that the market's action is satisfactory, but Wall Street anticipates a secondary reaction before any . sustained advance occurs. It is gossiped that Allied Chemical wi increase its common dividend. It reported that foreign interests are buying copper shares. It is rumoured that there will be a further advance in tyre prices.

S. C. &. F. New York office cables Stocks: This market was again subjected to profit-taking after early strength, but there were no signs of etc. heavy pressure. Oil and utility securites acted better than most stocks, the former responding rumours of an early advance crude oil prices and expectations of Both Days inclusive, largely increased earnings, while power and light issues were taken. By Order of the Board, by traders who considered them oversold and entitled to a technical rally. We would continue to pursue a cautious policy with respect to new commitments and have reserve buying power available in the event of a renewed decline. Business failures for the week amounted to

Commons Discusses Chinese Affairs

London, Apr. 14. Recent reports give ground for thinking the situation with regard to smuggling in North China is generally improving, Mr. Anthony Eden, the Foreign Secretary, told a questioner in the House of Commons to-day. But, he added, he would consider whether there was any further action that could usefully be

Mr. A. C. Moreing, Conservative, asked whether the British Ambassafrom 29th MARCH to 16th APRIL, dor to China had furnished a report on the arbitrary reduction of rents on property owned by Britons in favour of Chinese tenants. Mr. Eden said he was informed

by a sub-committee of the British Chamber of Commerce, with which he discussed the matter, that effective action seemed impossible until an instance occurred which could be made the subject of a test case. Meanwhile, the question would doubtless figure in the international petition which was being presented to the Chinese Government.—Reuter.

STRUGGLE FOR SUGAR MARKETS

Dutchmen Driving Hardest Bargain

Bargaining for shares in a free market continued to-day at the claims of French and Dutch interests. It is understood that the French. delegates pointed out that they were self-sufficient, wanting only a small l have before it communication from export quota in the case of bumper

the Non-Intervention Board regard- crops. The Dutch are apparently driving the hardest bargain, though details of their claims are not available. Czecho-Slovakia is understood to have demanded over half the total of the European share in the free volunteers from Spain will also be market, which is thought to have been tentatively fixed at between 620,000 and 630,000 tons.

The feeling in conference circles continues to be mildly optimistic, but no conclusion is expected before next week .-- Reuter.

CINEMA NOTES

.The conflict which confronts u young doctor-duty to the woman he loves versus his devotion to the highest tenets of the code of medical ethics, forms the plot of "A Doctor's Dlary," an intimate portrayal of the inside workings of a large metropolitan hospital, which is at the Alham-bra Theatre to-day. John Trent, former ace flyer, who makes his ap-pearance in a leading role in this film, is a young doctor with re-freshing notions on how hospitals should be run. He is kept from expounding them by his fear of losing his job. His nurse, played by Helen. Burgess, is dismissed when she criticizes the administration for neglecting a patient. When a charity patient, in the person of a violin genius loses lils arm through neglect. Trent quits. His society sweetheart thereupon breaks their engagement. THURSDAY, APRIL 15, 1937.

THE COLONY'S LOSS

The Colony will to-morrow say farewell with very real and deeply-felt regret to His Excellency the Governor and Lady Caldecott, who, during the relatively short period of their stay here, have won what can be rightly described as a wonderful degree of popularity. Sir Andrew Caldecott will have had the reputation of the shortest gubernatorial term of office in Hongkong's history; it is no mere platitude to say that he will also be remembered in the days to come as one of the very best and most capable Governors the Colony has ever had. It is a thousand pities that Hongkong could not have retained his services for the full period of five years. During the period of his incumbency, His Excellency has displayed an amazing grasp of the—Colony's-problems,—which are altogether different from those with which he was called upon to deal during his lengthy service in Malaya. How clearcut his conception of the essential needs of Hongkong are was made plainly evident in his! valedictory address to the Legislative Council . yesterday afternoon. No-one can have-read that speech without feeling that Sir Andrew takes the right perspective of the Colony's problems and that, were he to stay with us longer, many of the questions which call for urgent attention would be taken in hand without undue delay. But views for the guidance of his successor. HERE is a new joke in Vienna; about the Duke of Windsor, Two Englishmen meet in a Continental train. Says one to the other: "Where are you. going?"--"Vienna," is the reply. "Where's that?"---"A town near Enzesfeld."

The interest in the Duke's daily movements is declining now, so Enzesfeld village is not the fashionable place it was. The village inn, whose takings rose from £4 to £40 a day when a hundred journalists from every corner of the world ate and drank there, is now returning to normal trade.

The little boys of the village who played truant to watch the funny foreigners are now back under the schoolmaster's eye.

The Duke seems to have settled down there for some time. After April he will probably buy a house in Austria somewhere. Friends from England come and go. His daily routine is ski-ing, golf and skittles.

To turn to lighter things, the Viennese butchering trade has quarrelled for years over the correct titles for the seventy-odd kinds of sausages the Viennese adore eating.

There were 180 names in existence, many of which duplicated one another. Some fancy name often concealed no more than our old friend the Frankfurter (U.S. "hot dog").

To end this anarchy Vienna butchers appointed a commission for the "normalisation" of the sausage trade. .The commission has annihilated nearly two-thirds of the fancy names, and laid down precisely what ingredients each sausage type is to contain.

CYMNASIUM classes are the newest fashion among Viennese women. If you ask a girl to have a morning coffee nowadays she probably refuses "because I must go to my

PHILHARMONIC SOCIETY

"STREET SINGER" IS BIG SUCCESS

PHILHARMONIC SPRINGS SURPRISE

Whatever else may be said of the Philharmonic Society's production "The Street Singer" (and for the most part it is excellent enough to withstand criticism), it can be fairly named as the most colourful show Hongkong has enjoyed for many years. It is hard to conceive of anything more pleasing to the eye

than the carnival scene in the second act of this vivacious musical The mountings are superb and the players add lustre with

their exceedingly attractive fancy costumes. The company, having discovered a spontaneous delight in its lyrics and music, and its opportunities for unaffected gaicty, of the rain, introducing "Valentine;" proceed to play the scene with such joyous abandon as to leave the audience feeling there could be no happier place in the world than the studio of a young French artist who is struggling towards success.

TOP OF THEIR FORM

The entire second act finds princlpals, supporting players and chorus at the top of their form. It is quite obvious they are thoroughly enjoying themselves and this cannot fail to strike a sympathetically responsive swamp reception over most of the note in the reactions of the audience. Never before has a Philharmonie Society production created better "at-Mussolini has also increased the mosphere" than in "The Street power of the Volzano station ten-Singer". with power of 50 kilowatts (Brussels, The story is thin, but by means of clever embellishments the company which is heard powerfully in this country, is only 15 kilowatts), and is makes it appear vital. The . "curerecting a second Rome station with tains" are very good, particularly that which closes the first act. Though the play is essentially a romance, the players succeed in investing some of challenge. Day and night work has the scenes with a distinct flavour of drama. Thus romance, drama and vastly enlarged high-power transcomedy are cleverly interwoven each making its distinct contribution to a successful show.

A comfortable vietory for the Rifles resulted and they are now nicely placed at the top of teams having three matches outstanding.

The match was played under diffigult conditions on the Prince Edward Road ground, a torrential downpour, ·making the pitch very heavy and causing considerable handleap to the players. This, in fact, was the only match out of a schedule of four in the first division to be played.

Fusiliers, playing without Talbot, Taylor and Roberts, were outclassed by the Rifles, to whom full credit must be given for the manner in which they adapted themselves to the conditions.

Under the elreumstances the winners played excellent football and thoroughly deserved the points to one. Moore continued his recent good form by scoring a hat-trick, and it was encouraging to the league leaders' supporters to note how well Erwin and Killen played together.

Lynch May Defy Boxing Board

By TREVOR WIGNALL

EMILOWERS of boxing in Scotland are more than ever up in arms over the threat of the British Boxing Board of Control to deprive Benny Lynch, the British and world's fly-weight champion, of his titles if he fights Jimmy Warnock, of Ircland, under championship conditions in Glasgow in June.

Mystery was added to the matter recently by an alleged statement of the board that it had not come to any such decision, but Mr. George Dingley, the promoter of the contest, telephoned me from Glasgow and read to me a letter Lynch had received from the B.B.B.C.

This stated: "In connection with your contest with Warnock, at champlonship weight, which Mr. Dingley proposes to run in June, I have to inform you that under our rules you cannot fight at championship weight, and if you do the stewards would have to withdraw your licence, when you would automatically cease to hold the championship title."

SEEKING ADVICE

A letter of a somewhat similar kind wat also received by Mr.

Mr. Dingley, who is highly inhigh-handed action, informed me that he and Lynch would seek legal advice, and on it would depend whether the bout would be

F EAGUE cricket was not without | L unusual aspects. For the first time for many years two teams finished on level terms in the first division, and although an effort was made last Saturday to arrive at a definite decision, a drawn match between the Club and I.R.C. left them as joint holders of the shield. The standard of play was only average, but the season revealed several young players of promise. Holden was a successful bowler for the was a successful bowler for the Club; Neve showed talent as a batsman, and a fielder somewhat above the average. The Indians found a couple of stylish and enterprising batsmen in Y. el Arculli and A. R. Abbas, and a useful bowler in M. el Arculli. All the same the chief! burdens were again carried by A. R. Minu and A. H. Madar, Kowloon Cricket Club boasted the team of most possibilities in the senior division, but they disappointed. They drew matches with Craigengower and the Indians when both were almost certain victories, and they lost to the Club when they allowed Holden to bluff them out after he had had a couple of dozen runs scored from his first two overs. Donald Anderson's batting and R. Lee's bowling overshadowed everything else done by this team. Both under the auspices of the China Naplayers have only to reproduce the same form when next season starts to ensure inclusion in the Interport

3-0 | Baxter's Promise

IN the second division, K.C.C., the L . eventual champions, produced a batting "discovery" in Kenneth M Baxter, who had his first season out of school cricket. Baxter, sound in defence and well equipped with scoring strokes, made his half centuries regularly finishing with an average of over 50. Beyond each match. Baxter no exceptional talent was revealed in the junior division. The Army turned out three excellent sides, and the Navy, until they had to yield Forster to the seniors, and then lost other stalwarts through manoeuvres, was one of the bestbalanced teams in the division.

Badminton

MARKED advance was made in IVI badminton during the winter. Several new players of unusual talent appeared successfully to threaten the hitherto unquestioned superiority of a few University and Club de Recrelo players. The advent of the Chinese Y.M.C.A. provided a much-needed stimulant to the league, but the chief contribution to the improvement of the game was the organisation of badminton championships. Its biggest effect was to popularise the sirigles game, a phase of badminton which had previously been completely ignored in Hongkong. Diffident, though were many to participate in a game of which they had had little covered that it was worth while. TREVOR WIGNAL PAYS TRIBUTE TO OXFORD'S BOAT RACE TRIUMPH

GRIT WINS THEM ONE OF THE BEST RACES SEEN FOR YEARS

London, Mar. 25. IT will be many a long year before there is another Oxford and Cambridge Boat-race like the great one of yesterday.

The crowd, for a weekday, was tremendous, but it was one of the highlights of the morning that even those enthusiasts who sported light blue colours were among the most hearty with their cheers when the news was flashed down the river banks that Oxford had broken the spell that first settled on them in 1924.

Young George was elected twelfth man for his club football team. It was an away match, and the twelve of them arrived at a small hotel and asked for accommodation for the night.

"I'm afraid," said the manoger, "we have only eleven single rooms available. It looks as if one of you gentlemen would have to step across to the Red Llon."

"There's no need for that, sir," Interrupted the pretty chambermaid, who was standing by. "If the gentlemen will come upstairs with me, I think I can fix them all up." "Now," - she said, when the

Will Liven You Up

ON'T be afraid of the weather. Rain won't hurt you, providing you are properly clothed. Don't wear shoes with high heels. Get out a stoutly-soled pair with lots of foot room and stride along, swinging your arms as you go. Tennis and swimming are both ex-

cellent developers, but it is only in the summer that the latter is a popular favourite. But badminton is an equally good exercise and can be carried on all the year round. For men, football and Rugby are fine sports. Note the physique of the

players next time you see a game. Big, brawny, strong men. It's the constant training that keeps them fit. Boxing and wrestling, of course, Agents: are body-builders of the first order.

A. good boxer may have only one bout in six months, but he can never afford to neglect his training. And the moral of this is that you've got to keep at it. Doing your exercises for a week and forgetting

them for a fortnight is no good at all, If you want to be thoroughly fitto get the best out of life-you must make your exercises part of your daily routine.

Charges Labour Aiding Britain Rebels Spanish

JEERED SIR JOHN SIMON ON STATING POLICY

Uproar in House as Vote Of Censure Moved

London, Apr. 14.

Censuring the British Government for its allegedly spineless submission to the blockade of Bilbao, and accusing it of actually helping the blockade and the rebel cause, Major Clement R. Attlee, Labour Opposition leader, commenced a heated debate in the House of Commons to-day. "Apparently," he said, "anyone need only tell the Government they intend to sow a few mines at a port and the British fleet will then come and blockade the port for them."

"General Francisco Franco hopes to starve women and children and the British Government is going to help them," Major Attlee cried. "The action creates the wisespread conviction that the Government must be backing Franco. The Government has no right to push this humiliating procedure upon British sailors."

The House greeted this attack with cheers.

The diplomatic galleries were crowded for the debate, the Ambassadors present including those of Russia and Spain.

Sir John Simon, First Lord of the Admiralty, replied to the assault. The British Government's action with respect to the Bilbao blockade was based on its "policy of no interference, direct or indirect, in affairs in Spain. This is the declared purpose of the Government and of France", Sir John declared,

The Government within the last few hours has communicated with General Franco intimating that we refuse to recognise the rebels' belllgerent rights or to tolerate interlerence with British shipping, he asserted. "We added that any advice we have given British shipping does not affect the ultimate responsibility for any damage even to a vessel which has disregarded our advice." The Opposition constantly interrupted Sir John, one of the members singing, "We've Got a Navy."-United

Angry Interruptions

London, Apr. 14. Sir John Simon's reply in the House of Commons to Labour's vote of censure concerning the British policy of non-interference in the Bilbao blockade, was broken by angry interruptions, and a crowded house listened to-day's proceedings.

A suggestion was made at the annual meeting of shareholders of the Hongkong and Shanghai Hotels, Ltd., this morning, that, in the event of the Company considering the building of a new hotel on The Peak, shareholders should be consulted.

Replying to the suggestion, Mr. Lawrence Kadoorie, who presided, stated that the Directors had power under the Articles of Association to deal with such matters, and if the suggestion was that the Board should give up such powers, the Directors could not agree. He added, however, that the matter of replacing the Peak Hotel was still under consideration.

Fears Ruthless Campaign Would Ensue

Hendaye, Apr. 14.

Differences of opinion between General Francisco, Franco and the Italo-German general staff in Spain are described in reports of well-informed observers from Salamanca, who state that General Franco, the Insurgents' commander-in-chief, has been fighting against the suggestion from Rome and. Berlin that he delegate the military side of the war to another leader than himself, and concentrate on governmental affairs.

For months, it is stated, the Germans and Italians at Salamanca have been striving for control of military operations, and the Germans especially are convinced that General Franco is incapable of winning the war while retaining the supreme command.

200WARSHIPS, 400AIRPLANES READY FOR WAR GAME

By Carroll Kenworthy United Press Staff Correspondent Washington, April 15.

Sky fighting on a greater scale than ever known in sea "war" was ahead for the United States fleet to-day as it prepared to steam into the north Pacific from California a banquet on the 12th at Grosvenor

Two hundred fighting ships, comprising most of the underaged combat units in the navy, were marshalled to take part in the games over an expanse of 2,000,000

The "arena" ahead of them is a great triangle 2,000 miles or more on each side, reaching from California to the Alcutian Islands, off Alaska, on one side and thence to the Hawaiian Islands near mid-Pacific. The Midway Islands, 1,200 miles northwestward of Hawaii, will figure also in the operations, it was indicated.

Air power was tested in this region by naval manocuvres held there two years ago, but to-day more squadrons of flying craft than ever before are available for the games.

400 YEARS OF THE H.A.C. THE OLDEST

REVIEW BY THE KING

By A Correspondent

REGIMENT

The Honourable Arilliery Company, which claims to be the oldest regiment in the British Army, though the date of actual origin has been lost in the mists of time, is busily preparing to celebrate the 400th unniversary of the granting of Charter of Incorporation by Henry the Eighth.

These celebrations might be said to begin in May when the H.A.C., for the first time in half a century, will take part in the Royal Tournament, 124 men of all ranks appearing in the episode, "A Field Day of 1829."

Because these civilian soldiers, members of the senior unit in the Territorial Force, are "something in the City" by day, the episode is being presented only at night performances, save on the opening afternoon, when the Tournament is opened by the King. Captain-General of the H.A.C.

Then in July the regiment holds high revelry for a week in token of its proud record, and will have as guests nearly 100 members of the Ancient and Honourable Artillery Company of Boston, Massachusetts, who will be in England out of compliment to their "parent" unit. On July 9 there is to be a ball, attended by 3,000 members and their friends, given in a great marquee erected on the Artillery Ground, Finsbury, E.C. This is followed the following day by a regimental pageant and garden party, in which all ranks of the unit through four centuries will be seen.

SERVICE IN ST. PAUL'S

On Sunday, July 11, there is to be a regimental service of thanksgiving at St. Paul's Cathedral, followed by House, Parklane, W., which will be attended by 2,000 people, including the Duke of Gloucester, who joined the H.A.C. in 1935. On the 13th the H.A.C. members will themselves be entertained by their comrades from

At the Guildhall on July 14, the City Corporation, so closely linked with the Company through the centuries, are giving a reception which, it is expected, will be attended by a member of the Royal Family, and on Monday, July 19, the entire regiment will be reviewed by the King.

The men from Boston will be taken to Windsor and shown the house where The United Press learned that at the English emigrant-one of the least 45 vessels in the United States H.A.C.—who inaugurated their regifleet to-day are equipped with flying ment in 1638 was born, and next year, units, the total number of which is when the Boston unit is 300 years believed to be 403. THE COLONY'S LOSS

The Colony will to-morrow say farewell with very real and deeply-felt regret to His Excellency the Governor and Lady Caldecott, who, during the relatively short period of their stay here, have won what can be rightly described as a wonderful degree of popularity. Sir Andrew Caldecott will have had the reputation of the shortest gubernatorial term of office in Hongkong's history; it is no mere platitude to say that he will also be remembered in the days to come as one of the very best and most capable Governors. the Colony has ever had. It is a thousand pities that Hongkong could not have retained his services for the full period of five years. During the period of his incumbency, His Excellency has displayed-an-amazing-grasp-efthe Colony's problems, which are altogether different from those with which he was called upon to deal during his lengthy service in Malaya. How clearcut his conception of the essentiat needs of Hongkong are was made plainly evident in his! valedictory address to the Legislative Council yesterday afternoon. No-one can have read that speech without feeling that Sir Andrew takes the right perspective of the Colony's. problems and that, were he to stay with us longer, many of the questions which call for urgent attention would be taken in hand: without undue delay. TO turn to lighter things, the Viennese butchering trade has quarrelled for years over the correct titles for the seventy-odd kinds of \sausages' the Viennese adore eating.

There were 180 names in existence, many of which duplicated one another. Some fancy name often concealed no more than our old friend the Frankfurter (U.S. "hot dog").

To end this anarchy Vienna butchers appointed a commission for the "normalisation" of the sausage trade. The commission has annihilated nearly two-thirds of the fancy names, and laid down precisely what ingredients each sausage type is to contain.

Maintenance and repairs debit for year has increased by \$28,000 over the debit for the previous year, but when it is realised that this disbursement applies to seven large hotels and a Garage Department, objection to such expenditure should not be raised, for, as you are aware, proper and continual maintenance is essential to successful operation of the particular business your Company is running.

PHILHARMONIC SOCIETY

"STREET SINCER" IS BIG SUCCESS

PHILHARMONIC SPRINGS SURPRISE

Whatever else may be said of the Philharmonic Society's production "The Street Singer" (and for the most part it is excellent enough to withstand criticism), it can be fairly named as the most colourful show Hongkong has enjoyed for many years. It is hard to conceive of anything more pleasing to the eye than the carnival scene in the second act of this vivacious musical play.

The mountings are superb and the players add lustre with their exceedingly attractive fancy costumes.

The company, having discovered a spontaneous delight in its lyrics and music, and its opportunities for unaffected gaiety, proceed to play the scene with such joyous abandon as to leave the audience feeling there could be no happier place in the world than the studio of a young French artist who is struggling towards success.

The story is thin, but by means of clever embellishments the company makes it appear vital. The "curtains" are very good, particularly that which closes the first act. From the viewpoint of straight acting, I do not think it unfair to the

the Company, either to present to the shareholders or push ahead on their own knowledge. They are in special position to consider circumstances, conditions and future spects that we, as shareholders whatever our holdings may be as investors, may not and do not possess. In the circumstances, Sir, quite apart from the fact of the powers vested in you and your colleagues upon any measures, I feel that this is one of those steps in which we should not interfere with the decision of the Board at all. On the other hand, think there is a lot in the idea, although there are special circumstances, but from my special knowledge of the position of this Board, I think if there are any matters affecting the shareholders, they would welcome and invite any necessary opinions for their guidance and better deliberation.

The Chairman: I think, Dr. Kew and Mr. Braga, you are not wanting to take anything from the powers of the Board in this respect and you rely on their discretion to do what is best for the Company. You can rest assured that the Board of this Company will give due consideration Dr. F. H. Co. Reduces Capital

Too Much Money For Its Needs

On the somewhat unusual ground that it had more money than it needed, and did not know what to do with it, the Vibro Piling Co., Ltd., brought an application before the Chief Justice. Sir Atholi MacGregor, at the Supreme Court this morning for confirmation of the reduction of its capital from \$215,000 to \$150,400.

Appearing for the applicants, he Hon. Mr. Leo D'Almada, jnr., who was instructed by Mr. J. M. D'Almada Remedios, said the petition was brought because the Company was in the extremely happy position of having more money than it needed and did not know what to do with it. Granting the application, His Lordthey had put up £5.

His Lordship also directed that the minutes for the confirmation of the reduction and the registration of them be published in the Government Gazette, the South China Morning Post, and the Wah Toze

RIFLES HAVE A GOLDEN CHANCE OF WINNING CHAMPIONSHIP

YESTERDAY'S IMPORTANT FOOTBALL VICTORY

Efforts to catch up on the congested first division football league fixtures were hampered yesterday by the rainstorm which broke over Hongkong yesterday afternoon. It caused the postponement of three senior division fixtures, water-logged grounds making it impossible for appear regularly for the Argonauta the following matches to be played:--Kowloon v. Royal Ulster Rifles yesterday met what was expected to be their chief with a little more steadiness in obstacle before the end of the foot- shooting. ball season, but they were fortunate to find the Royal Weich Fusiliers well below strength. A comfortable victory for the Rifles resulted and they are now nicely placed at the top of the first division table, two points shead of South China "A", and both teams having three matches outstanding.

The match was played under difficult conditions on the Prince Edward Road ground, a torrential downpour making the pitch very heavy and causing considerable handicap to the players. This, in fact, was the only match out of a schedule of four in the first division to be played.

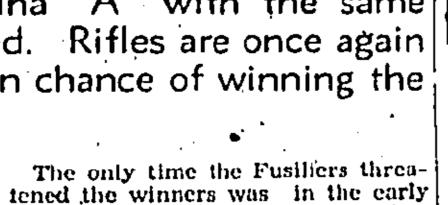

Fusiliers, playing without Talbot, Taylor and Roberts, were outclassed by the Rifles, to whom full credit must be given for the manner in which they adapted themselves to the

They called the tune from the opening rally, and though held to an odd-goal advantage until after half time, so thoroughly dominated the second period that another six goals were added without reply.

The game was vigorous and two of the Police team had to be sent off the field in the second half. This lightened the Fusiliers' task con-

twice for the winners, the rest of the eight being added by Saunders, Parry, Gresty and a Chinese defender. Chang Kong-yue netted the policemen's only points from a penalty.

IMPORTANT TIE IN CHAMPIONSHIP SERIES

RADIO V. C.B.A.

(By "The Pilgrim")

The first of three encounters to decide the championship of the Mamak Hockey Tournament is being played this afternoon, the contestants being Central British Association and Radio Sports Club.

The match will be payed on the U.S.R.C. ground, bully-off at 5.15.

As yet the 'C.B.A. have an unbeaten record, but they will find the Radio very powerful opposition. Radio have beaten such formidable teams as the Argonauta "A" and K.I.T.C. "A". General opinion agrees that Central British as winners of the "A" Division enjoyed a somewhat easy passage to the final, as the majority of the stronger teams were in the "B" Division.

Lynch May Defy Boxing Board

By TREVOR WIGNALL

MOLLOWERS of boxing in Scotland are more than ever up in arms over the threat of the British Boxing Board of Control to deprive Benny Lynch, the British and world's fly-weight champion, of his titles if he fights Jimmy Warnock, of Ireland, under championship conditions in Glasgow in June.

Mystery was added to the matter recently by an alleged statement of the board that it had not come to any such decision, but Mr. George Dingley, the promoter of the contest, telephoned me from Glasgow and read to me a letter Lynch had re-

celved from the B.B.B.C. This stated: "In connection with your contest with Warnock, at championship weight, which Mr. Dingley proposes to run in June, I have to inform you that under our rules you cannot fight at championship weight, and if you do the stewards would have to withdraw your licence, when you would automatically cease to hold the championship title."

SEEKING ADVICE

A letter of a somewhat similar kind was also received by Mr.

Dingley. Mr. Dingley, who is highly indignant at what he describes as a high-handed action informed me that he and Lynch would seek legal advice, and on it would depend whether the bout would be

COLONY'S WINTER SPORTS COMING TO AN END

Final Fling This Month

TONGKONG'S winter sports | sentative Shanghai and Tlentsin A are on the wane. Cricket and badminton have concluded hockey is having its final fling; rugby is all but ended; soccer has but a few weeks to run. League Cricket

T EAGUE cricket was not without L unusual aspects. For the first time for many years two teams finished on level terms in the first division, and although an effort was made last Saturday to arrive at definite decision, a drawn match between the Club and I.R.C. left them as joint holders of the shield. The standard of play was only average, but the season revealed several young players of promise. Holden was a successful bowler for the Club; Neve showed talent as a batsman, and a fielder somewhat above the average. The Indians found a couple of stylish and enterprising Soccer Team batsmen in Y. el Arculli and A. R. Abbas, and a useful bowler in M. el Arculli. All the same the chief For Shanghai burdens were again carried by A. R. Minu and A. H. Madar. Kowloon Cricket Club boasted the team of most possibilities in the senior division, but they disappointed. They drew matches with Craigengower and the Indians when both were almost certain victories, and they lost to the Club when they allowed Holden to bluff them out after he had had a couple of dozen runs sending to Shanghai a soccer side, scored from his first two overs. Beyond each match. Baxter no exceptional talent was revealed in the junior division. The Army turned out three excellent sides, and the Navy, until they had to yield Forster to the seniors, and then lost other stalwarts through manoeuvres, was one of the bestbalanced teams in the division.

Badminton

MARKED advance was made in IVA badminton during the winter. Several new players of unusual talent appeared successfully to threaten the nitherto unquestioned superiority of a few University and Club de Recreio players. The advent of the Chinese Y.M.C.A. provided a much-needed stimulant to the league, but the chief contribution to the improvement of the game was the organisation of badminton championships. Its biggest effect was to popularise singles game, a phase of badminton which had previously been completely ignored in Hongkong. Diffident though were many to participate in a game of which they had had little or no experience, they quickly discovered that it was worth while. At times the standard of play was exceptional-that is exceptional for P. and O. liner Rawalpindi on April Hongkong. P. H. Wong and P. K. 21. cause for complaint so far as the Association is concerned has been the somewhat cursory support given by Colony badminton players to the Association's functions. The finals and the Presentation Night, all of Recrelo, could have been, and should have been, much better supported by players. The Association makes it possible for some 100 or more players to enjoy properly organised and regular competitive badminton, and the least it should receive in return encouragement when it stages public

functions. Every player can discover something of value in watching these various exhibitions, quite apart from the fact that such events enable players to meet each other in a social atmosphere. It is hoped that next season, those who enjoy the benefits of playing in the competitions organised by the Association will show more readiness in giving the administrative body a full

A GAY ROMANTIC MUSICAL FANTASY

Work It Out For Yourself

Young George was elected twelfth man for his club football team. It was an away match, and the twelve of them arrived at a small hotel and asked for accommodation for the night.

""I'm afraid," said the manager, "we have only eleven single rooms available. It looks as if one of you gentlemen ; would have to step across to the Red Lion."

"There's no need for that sir." interrupted the pretty chambermaid, who was standing by. "If the gentlemen will come upstairs with me, I think if can fix them all up.".

"Now," she said, when the tired footballers had trooped up to the first landing, "if two of you gentlemen will go into No. 1 bedroom, I'll find a spare room for one of you as soon as I've shown the others to their

So, having put the captain of the team and George into No. 1, she put the third into No. 2, the fourth into No. 3, the fifth into No. 4, the sixth into No. 5, the seventh into No. 6, the eighth into 7, the ninth into No. 8, the tenth into No. 9, and the eleventh into No. 10.

Then, going back to No. 1, she sald:-

"I've found rooms for all the other gentlemen, and there is still a room to spare, so if one of you will go along to No. 11 you will find it empty." So George thought he had after all got his bedroom.

Or hadn't he? Work it out for yourself until you look at the answer in column Four.

ON'T be afraid of the weather. Rain won't hurt you, providing you are properly clothed. Don't wear shoes with high heels. Get out a stoutly-soled pair with lots of foot room and stride along, swinging your arms as you go.

Tennis and swimming are both excellent developers, but it is only in the summer that the latter is a popular favourite. But badminton is an equally good exercise and can be carried on all the year round. For men, football and Rugby are fine sports. Note the physique of the

players next time you see a game. Big, brawny, strong men. It's the constant training that keeps them fit. Boxing and wrestling, of course, are body-builders of the first order. A good boxer may have only one

bout in six months, but he can never afford to neglect his training. And the moral of this is, that you've got to keep at it. Doing your exercises for a week and forgetting them for a fortnight is no good at all.
If you want to be thoroughly fit to get the best out of life-you must make your exercises part of your daily routine.

EMPIRE LINKED BY RADIO

Greetings Exchanged From Many Lands

Prince Speaks To "One Great Family"

(Special to "Telegraph")

London, Apr. 14.
Radio knit the Empire together this afternoon, when there was an unprecedented exchange of greetings by radio telephone on the occasion of the opening of the extension of the headquarters of the Overseas League premises at Overseas House, St. James' Square, London, by the Duke of Gloucester.

The Duke included in his speech a message from the King, and replies were made by the Viceroy of India Canada from Ottawa, the Governor- picked foreign troops, commanded the Governor-General of New Reuter. Zealand from Wellington, and the Governor-General of South Africa from Capetown.

In his speech, the Duke of Glou-cester emphasised that there was never a time in the world's history when the British Empire had a more important role to play as a great stabilising force. He rejoiced to think that the Overseas League, recognising no distinction of creed, colour or class, sought to realise the ideal of his father, the late King

George V, of being "one great family." The function, which was presided St. Andrew's Hall, subscribed for by Scottish members of the League, An- hotels was revealed before Mr. K. over by Lord Goschen, took place in other room, panelled in Indian silver grey wood, is the gift of the Government of India, concerning which the Duke paid a tribute to the generous 27, unemployed, were charged with

donations by many Indian Princes. The Duke of Gloucester was recelved by a guard of honour drawn from the Rhodiesian and Australian Coronation contingents. — Reuter Special,

URGED TO SELL COTTON

AND PAY BACK LOANS FROM GOVERNMENT

Washington, Apr. 14.
The Agriculture Adjustment Administration has advised farmers with C.C.C. cotton loans outstanding to sell their holdings immediately.

South Director Cully Cobb declared: "Farmers who have borrowed 12 cents per pound on their cotton have now the opportunity of liquidating their loans, simultaneously realising about \$1.25 a bale."

Loan stocks are at present ap-

proximately 1,850,000 bales, liquidation of which would eliminate Government cotton as a market factor, Mr. Cobb said .- United Press.

GANDHI REMAINS UNMOVED

Claims He is Acting As Mediator

Declares British Policy Unfair

London, April 14: A series of important efforts on the part of the British authorities to placate the All-India Congress Party opposition to constitutional reforms, in their present form, has failed to shake Mahatma Gandhi in the advice he has given the party not to accept office in the provinces where its members have secured a majority. This is made clear in a message from Gandhi "to "the Times," sent "from

India's misapprehensions.

'Lord Zetland, in a speech on April 8, ruled out as impossible the suggestion that Governors give assurances that they will not use their special powers, but indicated that the Viceroy would willingly explain the provincial positions further if approached by Gandhi or other Congress party representatives.

NOT FAIR

Gandhi's message to-alght rejects Lord Zetland's interpretation and says his refusal to submit his interpretation to examination by a legal tribunal will raise the strong presumption that the British Government does not intend to deal fairly by the majority, whose advanced programme Britain dislikes,

"I prefer an honourable deadlock to dishonourable daily scenes between Congress party members and the Governors, for in the sense the British Government means, the working of the Act by the Congress party seems impossible," Gandhi writes.

"It is therefore for the British Government to show the Congress party by every means open to it within its constitution, that the Congress party can advance towards its goal even by taking office.' Having affirmed that he was not actuated by any question of false prestige, Gandhi says: "My function is that of a mediator between the

Congress party and the Government which, unlike many Congress party members, I believe to be capable of being converted under moral pressure, as of being cocreed under physical pressure."—Reuter.

STRIKE LEADERS BANISHED

LABOUR QUESTIONS COLONIES SECRETARY London, Apr. 14.

Arising from the recent strikes in rubber plantations in Selangor and Negri Sembilan, Mr. John Parker, Labour M.P. for Romford, asked, in the House of Commons to-day, un-der what authority the strike organizers were banished from Selangor. Mr. W. Ormsby-Gore, Secretary of State for the Colonies, replied that Labour Unions were legal in the Malay States, but he was unaware of any cases of expulsion simply in respect of the organisation of strikes. Mr. Ormsby-Gore added that some expulsions were ordered where industrial disputes were misused for the purpose of incitement to violence and disorder.—Reuter.
